TIME MANAGEMENT PAIN POINTS

- Manual tracking of employee PTO (Excel spreadsheet or in-house solution)
- Manual tracking of punch in / punch out
- Lack of visibility into projects, activities, leave balances, etc.
- No integration to accounting/ERP, HRIS, payroll systems
- Multiple timesheets for individual projects
- Too much time spent on:
 - tracking down unsubmitted timesheets
 - incorrectly filled out timesheets / PTO

CUSTOMER BENEFITS

- Complete integration to customer Accounting/ERP, payroll, and HRIS systems
- Manage projects, labor, and leave all in one location
- Easily manage employee time off, even during fast-moving periods of change
- Save time on remedial administrative tasks
 - Finding unsubmitted timesheets
 - Review individual project timesheets for incorrect or missing data
- DCAA compliance built into solution
 - No manually checking on compliance rules
- Cloud-based which allows real time statuses and notification
- Compliance with California break requirements and meal break tracking

COMPETITIVE DIFFERENCES

- Clock in / clock out with geo-fencing
- Scheduled reports (including audit trail)
- FMLA support
- Team calendar views
- Automated leave management
- Award-winning support without additional support fees
 - Available 24 hours/day
